Research Title: "The Factor of Phishing, Scams, and Social Engineering Among UUM Students on Facebook"

Dear Expert,

This questionnaire consists of Section A, B, C and D.

- For the **Section A** (Demographic Questions), **Section C** (Additional Questions) and **Section D** (Open-Ended Questions), please comment in the "**Remarks**" section for each question.
- For the **Section B** (85 Questions), please rate the relevancy of the following questionnaire items based on the 4-point scale below.

Not Relevant	Somewhat Relevant	Quite Relevant	Highly Relevant
1	**2**	**3**	**4**

"Your willingness to validate the content of this questionnaire is highly appreciated."
Thank You.

Section A: Personal Information	Remarks
1. **Age:** 25 Years	
2. **Gender:** 1. Female ○ 2. Male ✓	
3. **Are you currently a student at Universiti Utara Malaysia (UUM):** Yes ✓ No ○	
4. **Do you have an active Facebook account?:** Yes ✓ No ○	
5. **What is your age?** 18-20 Years ○ 21-23 Years ○ 24-26 Years ✓ ≥ 27 Years and above ○	
6. **How often do you use Facebook?** Daily ✓ Weekly ○ Monthly ○ Rarely ○	

Section B

Please rate the relevancy of the following questionnaire items based on the 4-point scale below. Use the "**Remarks**" field to give any comment.

Not Relevant	Somewhat Relevant	Quite Relevant	Highly Relevant
1	2	3	4

1.0 – Phishing & Social Engineering Factors	Expert Rating				Remarks
1a. I usually trust links sent by Facebook friends without verifying them.	1	2	3	4	
1b. I find it difficult to distinguish between a real Facebook notification and a fake one.	1	2	3	4	
1c. Phishing messages often look too realistic for me to identify as fake.	1	2	3	4	
1d. I am likely to click on sensational news headlines or "shocking video" links shared on Facebook.	1	2	3	4	
1e. I often participate in Facebook quizzes or games that require access to my profile information.	1	2	3	4	
1f. It is difficult to spot a scam when the message creates a sense of urgency (e.g., "Your account will be banned").	1	2	3	4	
1g. I tend to trust posts or messages that appear to come from official UUM pages or administrators.	1	2	3	4	
1h. Scammers use language or slang that makes them sound like genuine students.	1	2	3	4	

2.0– Perceived Severity & Vulnerability	Expert Rating				Remarks
2a. Falling victim to a financial scam on Facebook would cause me severe stress.	1	2	3	4	
2b. I feel I am personally vulnerable to identity theft on Facebook.	1	2	3	4	
2c. My personal information on Facebook is at risk of being stolen.	1	2	3	4	
2d. If my account was hacked, I am worried my friends would be scammed using my identity.	1	2	3	4	
2e. Losing access to my Facebook account (photos, memories, contacts) would be a significant loss.	1	2	3	4	
2f. I am concerned that a malware infection from a Facebook link could damage my device.	1	2	3	4	
2g. Falling for a scam would negatively affect my reputation among peers.	1	2	3	4	

3.0– Self-Efficacy & Response Efficacy	Expert Rating				Remarks
3a. I am confident in my ability to recognize a fake login page.	1	2	3	4	

3b. I know exactly what steps to take if my account is hacked.	**1**	**2**	**3**	**4**	
3c. Verifying URLs (links) is an effective way to prevent phishing.	**1**	**2**	**3**	**4**	
3d. Reporting suspicious accounts to Facebook actually helps reduce scams.	**1**	**2**	**3**	**4**	
3e. I am confident I can identify a shortened URL (e.g., bit.ly) that leads to a malicious site.	**1**	**2**	**3**	**4**	
3f. I know how to check if a website connection is secure (HTTPS) before entering my password.	**1**	**2**	**3**	**4**	
3g. I believe changing my privacy settings effectively reduces the risk of social engineering.	**1**	**2**	**3**	**4**	
3h. Blocking suspicious users is an effective way to stop harassment or scams.	**1**	**2**	**3**	**4**	

4.0– Protective Behaviour	**Expert Rating**				**Remarks**
4a. I frequently change my Facebook password.	**1**	**2**	**3**	**4**	
4b. I ignore friend requests from people I do not know in real life.	**1**	**2**	**3**	**4**	
4c. I verify the sender's identity before clicking on unexpected links.	**1**	**2**	**3**	**4**	
4d. I have enabled Two-Factor Authentication (2FA) on my Facebook account.	**1**	**2**	**3**	**4**	
4e. I limit the personal information (e.g., phone number, birthday, hometown) visible on my public profile.	**1**	**2**	**3**	**4**	
4f. I avoid logging into my Facebook account on public computers or public Wi-Fi.	**1**	**2**	**3**	**4**	
4g. I regularly review the list of third-party apps and websites connected to my Facebook account.	**1**	**2**	**3**	**4**	
4h. I use a different password for Facebook than I do for my email or other accounts.	**1**	**2**	**3**	**4**	

Section C: Additional Questions	**Remarks**
1. What type of phishing or scam have you encountered? (Select all that apply)	Good
2. What actions do you take when you encounter a phishing attempt or scam on Facebook?	Good
3. What preventive measures do you use to protect yourself from phishing and scams on Facebook?	Good

4. Do you think Facebook's current security measures are sufficient to prevent phishing and scams?	Good

Section D: Open-Ended Questions	Remarks
1. Have you or a friend ever encountered a phishing scam or suspicious message on Facebook? If yes, please briefly describe what happened and how you realized it was a scam.	Good
2. In your opinion, what is the main reason why students still fall for scams despite knowing about cybersecurity risks? (e.g., rushing, trust in friends, greed, fear).	Good
3. What specific actions do you think UUM or Facebook should take to better protect students from social engineering attacks?	Good

Suggestions and comments regarding the questionnaire:

Overall is good

Expert Information:

Name of Expert: Muhammad Farhan bin Ismail

Expertise Area: Master of Economics

Years of Experience in the Particular Area: 5 Years

Official Stamp:

Your time and cooperation are highly valued.
Thank you.

Best regards,
AnuarAbraham
